

**DUOS
ASINOS**
consulting

Duos Asinos Consulting doo is a growing company founded and based in Belgrade, Serbia, specializing in Information Technology and graphic & design services. Our experience spans from designing and building complex custom solutions for various industries, from telecommunications, retail, ecommerce, business intelligence, to hospitality, point of sales, manufacturing, document management, production processes, and many more.

Our team is growing, and we are looking for an experienced IT professional for the role of:

Android developer – Senior level

A new team based in Serbia will join forces with our client's existing IT division working in North America. The client is an innovative, world-wide renowned front-runner in its industry, with a huge user-base.

What we are offering:

- Four-day working week as an option
- Healthy and friendly working environment with young talent and experienced leaders
- Choice of remote work from home or from our lovely offices
- Private health care
- Competitive salary
- MacBook pro equipment
- Paid sick leave
- Generous and flexible off-days options
- Support for new moms & dads
- Social events
- Opportunity to prove yourself, apply your skills and learn new ones
- Innovation-driven projects with cutting-edge technology
- Caring management

Requirements:

- Minimum 3 years of professional experience as an Android developer
- Ability to produce develop well-architected, clean, and efficient code
- Excellent working knowledge of Android SDK using Kotlin and Java
- Deep understanding of how systems communicate on the backend, and can interface with API
- Experience building UI's that are tightly constructed, standard across views and scale well
- Self-motivated, comfortable working to product/design requirements or directly collaborating with these teams to flesh out brilliant solutions.
- Experience with the common architecture design patterns of MVP and MVVM (with Android's LiveData preferred)
- Experience with writing Unit tests
- Experience with Google In-app Billing and Kotlin Coroutines is considered an asset
- English language full proficiency is a must
- Persistence and ability to meet deadlines
