

**DUOS
ASINOS**
consulting

Duos Asinos Consulting doo is a growing company founded and based in Belgrade, Serbia, specializing in Information Technology and graphic & design services. Our experience spans from designing and building complex custom solutions for various industries, from telecommunications, retail, ecommerce, business intelligence, to hospitality, point of sales, manufacturing, document management, production processes, and many more.

Our team is growing, and for our new venture, we are looking for:

Experienced PHP developers

A new team based in Serbia will join forces with our client's existing IT division working in North America. The client is an innovative, world-wide renowned front-runner in its industry, with a huge user-base.

The role would include maintaining the PHP platform, fixing bugs and implementing new features as well as working on API calls to a new ecommerce platform that would have React on front end, and microservices Java microservices in back end. The plan is to split up the application into microservices in the future, so candidates with Laravel/Lumen experience are preferred. There are several positions with diverse experience requirements.

What we are offering:

- Four-day working week as an option
- Healthy and friendly working environment with young talent and experienced leaders
- Choice of remote work from home or from our lovely offices
- Private health care
- Competitive salary
- MacBook pro equipment
- Paid sick leave
- Generous and flexible off-days options
- Support for new moms & dads
- Social events
- Opportunity to prove yourself, apply your skills and learn new ones
- Innovation-driven projects with cutting-edge technology
- Caring management

Requirements:

- Minimum 2 years of professional experience as a PHP backend developer
- Experience with MySQL relational databases
- Experience with using version control tools like GitHub or Bitbucket
- Experience with teamwork and collaboration
- English language full proficiency is a must
- Experience with JS/JQ
- Ability to learn new technologies
- Persistence and ability to meet deadlines

Bonus skills:

- Experience with Laravel/Lumen
- Experience with Symfony framework
- Experience with micro-services architecture
- Experience with AWS services and cloud technologies
- Experience with container-based architectures like Docker
- Experience with JIRA/Bitbucket
- Experience in Agile-managed development projects
- Experience working with US clients or customers
- Awareness of IT companies' Compliance and Security requirements

If you find yourself suitable for this position, please send us your CV to office@duosasinos.com
