

**DUOS
ASINOS**
consulting

Duos Asinos Consulting doo is a growing company founded and based in Belgrade, Serbia, specializing in Information Technology and graphic & design services. Our experience spans from designing and building complex custom solutions for various industries, from telecommunications, retail, ecommerce, business intelligence, to hospitality, point of sales, manufacturing, document management, production processes, and many more.

Our team is growing, and we are looking for an experienced IT professional for the role of:

Frontend (React) developer – Senior level

A new team based in Serbia will join forces with our client's existing IT division working in North America. The client is an innovative, world-wide renowned front-runner in its industry, with a huge user-base.

What we are offering:

- Four-day working week as an option
- Healthy and friendly working environment with young talent and experienced leaders
- Choice of remote work from home or from our lovely offices
- Private health care
- Competitive salary
- MacBook pro equipment
- Paid sick leave
- Generous and flexible off-days options
- Support for new moms & dads
- Social events
- Opportunity to prove yourself, apply your skills and learn new ones
- Innovation-driven projects with cutting-edge technology
- Caring management

Requirements:

- Minimum 4 years of professional experience as a Frontend JS developer
- Minimum 2 years of experience with React
- Solid understanding of HTML5, CSS3 standards, Accessibility, and implementing responsive web designs
- Experience with using version control tools like GitHub or Bitbucket
- Experience with Agile-managed development projects, teamwork, and collaboration
- English language full proficiency is a must
- Familiarity with back-end services (APIs, microservices)
- Comfortable in a small, high-growth start-up environment.
- Ability to refactor of complex features to help improve their structure, maintainability, and portability.
- Ability to learn new technologies
- Persistence and ability to meet deadlines

Bonus skills:

- Experience with Laravel PHP
- Experience with GraphQL, Redux, Redux-Saga
- Familiarity with AWS services like API Gateway, Route53, CloudFront, Lambda, S3 and Cognito
- Experience writing unit and integration tests (Cypress, Jest, etc)
- Experience with JIRA/Bitbucket
- Experience working with US clients or customers
- Awareness of IT companies' Compliance and Security requirements

If you find yourself suitable for this position, please send us
your CV to office@duosasinosa.com
