

```
var transitionDuration = Util.getTransitionDuration($activeElement).one(Util.TRANSITION_END, function () { $(nextElement).removeClass(className); $(activeElement).removeClass(className); _this4._isSliding = false; setTimeout(function () { return $(_this4._element).trigger('slid.bs.carousel'); }, 0); }).emulateTransitionEnd(transitionDuration); } else { $(activeElement).removeClass(className); $(nextElement).addClass(className);
```

We are looking for a QA Team Lead

The project

We are **Duos Asinos**. We are based in **Belgrade** and are offering a wide variety of **IT related services**.

Our **team** is **growing**, and **we want you** to **join us!** The project is a **dating platform** from our North American partners with about **100 million users** and **40 million daily users**.

On said project we have **PHP, Java, Android** and **iOS** developers. All of them co-operate with the **QA team** which **ensures everything runs smoothly**

It all started in 2016 with a QA and designer team and our first client

The job

As a **QA Team Lead**, you are **responsible to lead** and **grow QA team members** as well as **drive and improve** the function of **QA** in an **agile environment**.

Communicate with other stakeholders around the world.

Implement and support a KPI driven approach across your team. **You would also focus on continuous QA improvements** including the usage of the business cases/logic analysis and recommendations, testing tools, testing techniques and quality monitoring tools.

Duos Asinos in Latin means "two donkeys", if you want to know why we picked that name, check our website.

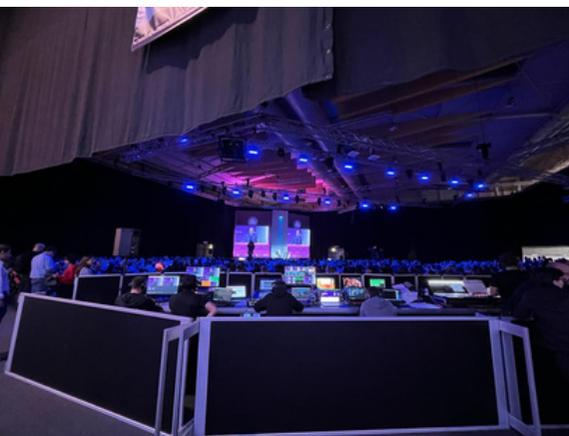

Why work for us?

Why work for us?

- We make a **clear distinction between company and personal time**
- Aside from a few die-hards, **most of us work** and will **continue working from home**
- **Adaptable work hours** and days (a **four-day work week** is optional)

What else we're offering:

- **Private health care**
- **Generous and flexible off-days**
- Paid sick leave
- MacBook Pro & other equipment
- Social events
- **Support for new parents**

We occasionally send our employees to seminars, summits and similar activities

The skills

What we're looking for:

- Experience or **knowledge** of **QA Automation concepts and processes**
- Previous **experience** as a **QA Team Lead** or other managerial roles
- Knowledge of **QA terminology** and practices (**ITIL framework, ISTQB standards**)
- Experience with **TestRail** or similar software
- **English language full proficiency** is a **must**

Not a must, but cool if you have it:

- **ITIL or ISTQB Certification**
- Experience with **testing on mobile devices** (iOS & Android)

The people you'll be working with on the project

```
var transitionDuration = Util.getTransitionDuration($activeElement).one(Util.TRANSITION_END, function () { $(nextElement).removeClass(className); $(activeElement).removeClass(className); _this4._isSliding = false; setTimeout(function () { return $(_this4._element).trigger('transition'); }, 0); }).emulateTransitionEnd(transitionDuration); } else { $(activeElement).removeClass(className); $(nextElement).addClass(className);
```
